

# TW PRODUCTS

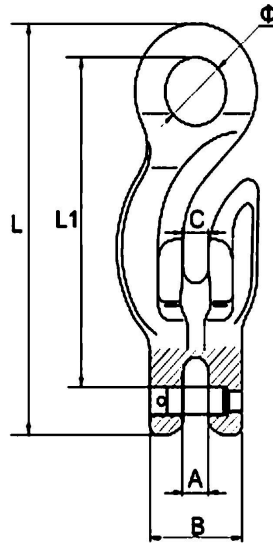

## FEBRUARY NEWSLETTER

January was a busy and productive month here at TW Products. We started on the design of a new catalog for our G100 products. While the catalog will not contain all of our G100 items, it will enable our customers to grasp our wide selection quickly. It is worth noting that we have added over 15 new G100 products, and we are excited to share them with everyone. Be sure to contact our customer service team at [customerservice@twprod.com](mailto:customerservice@twprod.com) or by phone at 410-824-8377 to be one of the first to get a copy.

### TW PRODUCTS

#### G100 Clevis Eye Grab Hook

- ✓ Forged super alloy steel - quenched and tempered
- ✓ Individually proof tested at 2.5x the Working Load Limit
- ✓ 25% stronger than G80

### Upcoming Events

Further, our team is gearing up for the 2024 NAHB International Builders' Show® (IBS). The IBS is the largest annual light construction show in the world. Last year, the show welcomed approximately 70,000 visitors from over 100 countries. We are excited to have the opportunity to exhibit at such a diverse show. This year, the show will take place at the Las Vegas Convention Center, and our booth will be located in the South Hall, # 2112. Mark your calendars, and we hope to see you all there.

Additionally, within our internal operations, we are making continued efforts to live up to our Corporate Sustainability Initiative. The initiative was established a few years ago when we learned the importance of playing our parts in helping lower the global carbon footprint. World-leading organizations, including Google, Microsoft, and Apple, have also been making significant efforts to support this green initiative. We are honored to participate in this initiative and plan to expand our digital and paperless practices this year.

### SUSTAINABILITY INITIATIVE
