

Monthly Newsletter

– April, 2024 –

March was eventful. We've had the privilege to exhibit at the National Hardware Show - 2024 in Las Vegas, Nevada. The show is the only event in the industry that unites the entire home improvement community. Famous attendees include Ace Hardware, the Home Depot, Lowes, and others.

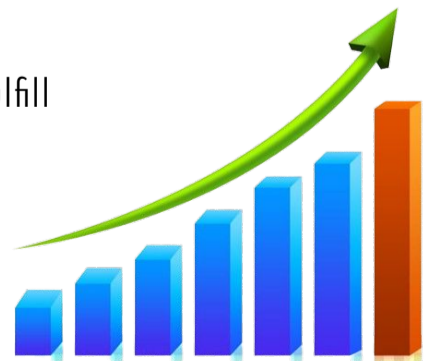

We were excited to make acquaintances with various industry experts, professionals, and field practitioners.

David shares that, "The trade show was trafficked than the last one we attended but not as many people as we were expecting. However, we did meet some nice people who might very well become our customers. "

As we progress into the year's second quarter, we plan to make efforts toward our expansion goal. This includes:

1. Adding additional team members to the group to fulfill the varying needs of company growth;
2. Expanding into the e-commerce market; and
3. Implement continual improvement efforts to streamline processes for higher productivity and efficiency.
