

Monthly Updates for TW Products!

May 1st, 2023

TW Products at the Florida Tow Show 2023

This past month, TW Products had the opportunity to attend and network at this year's Florida Tow Show. The event, which brands itself as the "industry's largest international tow show," took place in Orlando and featured over 150 exhibitors. Our company manufactures, among other items, a variety of hooks, chains, shackles, and straps used heavily in towing. At the Florida Tow Show, many of these exact products were displayed on distributor and end-user exhibits (as seen in the photo to the right) – a welcome sign of TW's growing reputation within the industry.

Heading to OTC 2023

May is here, with it comes more networking possibilities and brand expansion. We open the month by attending the 2023 Offshore Technology Conference (OTC) in Houston, TX. Several TW Products staff attending the conference have spent several weeks preparing to put the company's best foot forward in Houston.

TW Products prides itself on the quality of our goods and customer service. This includes being available to open dialogue with those interested in what we have to offer, whether through events such as OTC or our customer service team at our office here in Jessup, MD. If you are a new or existing customer with questions or concerns about business or sales and want to discuss specifics, do not hesitate to contact our customer service team at customerservice@twprod.com. Additionally, if you want information about our many products, our website at www.twprod.com includes our [most current catalogs](#).
