

# TW PRODUCTS

Chain, Wire Rope & Rigging Hardware

TW PRODUCTS® is totally committed to manufacturing the highest quality stock available on today's market, that's why we pursued a relationship with the Web Sling & Tie Down Association (WSTDA). The WSTDA has been a trusted resource for manufacturing and safety standards since formation as the Web Sling Association in 1973 and is recognized by the U.S. Department of Justice as a Standards Writing Organization ([www.wstda.com](http://www.wstda.com)). Being admitted to such an esteemed association reassures you of the quality and services you can expect from us!

## **TW PRODUCTS® is thrilled to announce our membership with the Web Sling & Tie Down Association.**

Our partnership with this esteemed organization will help remind all our customers that TW's legacy is to provide the best in safety tie down equipment, and is dedicated to the quality and performance of all our merchandise.

Finally, we would like to extend our gratitude to Ralph Abato, President of Doleco USA, for his endorsement of excellence to the WSTDA on our behalf! TW PRODUCTS® extends it's sincerest thanks!

**THANK YOU**
