

TW'S ROLE IN OYU TOLGOI MINE PROJECT

G80 ALLOY CHAIN

G80 MASTER LINK

G100 COUPLING LINK

J&J TURNBUCKLE

The Oyu Tolgoi Project is a combined open pit and underground mining project in Mongolia; a joint venture between Turquoise Hill Resources and the Government of Mongolia. The project is the largest financial undertaking in Mongolia's history and is expected to produce 450,000 tonnes of copper annually.

Only the most durable products and vendors with a proven track record of being reliable, accountable, and trustworthy were selected for this project. We are thrilled to announce our role in the Oyu Tolgoi Mining Project as one of the key suppliers of forging products.

Some specific products we are supplying to this project include grade 80 & grade 100 hooks and connecting links, grade 80 lifting chain, and turnbuckles; all of which are embossed with our name, "TW".
