

INTRODUCING TW'S VERY OWN CARABINER KEYCHAINS

TW views innovation as one of the most critical factors in success, and that's why we are constantly innovating, both in our business model and value chain.

I weigh 0.03 lbs but can hold up to 175 lbs

Here's a carabiner that originates 100% from our regular snap hooks. We re-engineered the product through material modification and made a lightweight yet heavy duty product for your everyday use!

Available in blue, silver, gold, etc.
